As a result of the increased number of box lots and the logistics of storing these and delivering them to the auction venue, we have had to simply list them by lot number below. We have NOT sighted the contents as they are being delivered by the respective vendors on the auction day. On the basis all box lots need to be paid for and collected on the day, we rely on the bidder to have viewed these before bidding. The conservative reserves combined with past box lots from such vendors would indicate that they are worth taking the time to peruse. Those box lots with extended descriptions have all been viewed by the describers here at Ace Stamp Auctions & thus can vouch for the contents. Thank you.

"...bisects do exist and have apparently done genuine postal duty. All those seen are from the 1890's and early 1900's... bisects were never authorised or legal" & furthermore, are regarded as "a counterfeit and as such was prohibited under 17 Vic 12. The sentence to which one was liable was in fact rather severe... to be transported beyond the seas for life, or for any term not less than seven years, or to imprisoned for a term not exceeding four years, nor less than two years with or without hard labour, as the Court shall award". Thus is it any wonder then that this is the first example we have handled! A fine piece of WA postal history.	\$150

A substantial collection of West Australian Postmarks & Postal History is presented in these next 6 lots. Yes, it has been cherry picked of most of the best & rarest but what remains surpasses in quality & quantity the offerings of many such collections that we have seen in recent years. Our descriptions highlight important aspects of these lots in an attempt to give an overall picture of the importance of each lot. To this end there is a listing of rare cds's, Savings Bank cancels & listings of Postal History. Nearly all postmarks are on WA swan stamps but some extend to the kangaroo & KGV era. Note: For these 6 lots, the practice of using brackets to highlight missing letters in part strikes has been adopted. The condition of most items is at worst average with many fine.
