ACE STAMP AUCTIONS SALE No. 35

Cannington Exhibition Centre, Corner Albany Highway & Station St, Cannington

Auctioneers: Rob Mandanici & Terry Finlayson

Once again, I have pleasure in presenting our latest catalogue with 2770 lots from over 60 vendors allowing us to offer an excellent cross section of material.

Our Coins & Banknotes section has expanded after the last auction to offer a range of RAM and Perth Mint issues as well as overseas coins and some gold lots including the 2006 40th Anniv of Decimal Currency "Eight Coin Gold Set" in 24 carat gold (4.19oz). (lot 173).

Our box lots and collections have some outstanding opportunities for resellers and those of you who have become Ebay aficionados. Whilst there are many collections that allow you to fill gaps or even start a new area of collecting.

Kangaroos and KGV have never been stronger than in this auction with the immediate highlights being on the front cover and inside colour plates. The star items being the 1913 £1 brown & blue 1st watermark in a top right marginal corner block of 4 (lot 1341) and the 1915/29 £1 chocolate & dull blue, 3rd watermark, block of 9 ovptd "SPECIMEN" with a couple of listed varieties. This is superb MUH and believed to be originally from the Australia Post Archives. (lot 1414) Whilst appreciating these, also be impressed with the array of multiples and shades on offer in the numerous other lots as well as the collections.

Another vendor has provided some more of his Zeppelin covers found in the Airmail section plus various Concorde first flights and some of the earlier Australian flights including "Rocket Mail" (lots 806-869).

The increasing interest in PNC's is reflected by our record number of 156 lots with reserves totaling over \$12,000 (lots 2167-2322) including the rarely seen "Cancelled by Covid" Perth Stamp & Coin Show issue signed by the Mayor of South Perth (lot 2307).

We have also become aware of the demand for the issues of the last 20 years including Australian booklets and those overprinted for various shows and events. These were championed by the late Sel Pfeffer and catalogued by Joe Crum. We have taken the time to break these down into single lots for the specialist. (lots 2088-2149)

The Australian Officials section has been enhanced by lots from Keith Docking, Peter Goodall and Garry Constable where lots such as the 1915/28 10/- grey & pale aniline pink, 3rd wmk in MUH top right marginal corner block of 4 perfined "OS" are highlights. (lots 1777-1926)

Our Western Australian section continues to expand, and our thanks go to Milton Hook for the amazing Telegraphs and barred numerals and Chris Sykes and Brian Pope for their contributions including the highly debated inverted 1884 "½" surcharge on 1d yellow-ochre! These lots allow the postmark, postcard, revenue and WA Postal History enthusiasts to add to their own collections with established pedigrees! (lots 917-1305)

There are simply too many lots to continue to mention but I urge you to visit our website where we have uploaded over 2000 images (www.cestampauctions.com) or see us on Stand 13 at The Canberra Stamp Show where we will have a selection of lots available for viewing.

Talking of shows, I can now confirm the **2025 Perth Stamp & Coin Show** which will be held at the usual location, South Perth Community Centre, from **Friday 7th to Sunday 9th March 2025** with over 30 dealers confirmed plus the return of The Perth Mint. So mark your diaries now!

In closing, this auction heralds reserves of over \$10,000,000 since we started in 2008, describing some 63,000 lots from over 1200 vendors. This is an amazing achievement as we are not "one of the big boys" with numerous staff, budgets and "flash" premises and catalogues. I thank the Australian collecting community and even more so, the local West Australians for their support as both vendors and buyers. Sales are rapidly approaching the same figure reflecting our sensible reserves and 75%-85% sale rate.

My sincere thanks also go to the team who contribute in producing these auction catalogues and assist on the auction weekends. John McPhee and Trevor Lacy with their describing, Marc Poupart in IT, Liz Sharp and Caroline Read with administration, Dee and Skeet with lot pulling and labelling, Damon Mayston with logistics and Mick Evans with PR plus the vital skills of Rob Mandanici, lead auctioneer, and Terry Finlayson calling the sales. Last, but very much not least, my wife Christine who is still around after 35 auctions, 17 Perth Stamp & Coin Shows, 22 years of marriage and 30 years of being mystified by this wonderful hobby!

COINS & BANKNOTES - Grading & terminology used in this catalogue

Proof: Proof coins are struck using specially hardened dies & highly polished blanks. The result is great clarity & depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

Prooflike: Often a non-official mint strike, or medallic in nature.

Brilliant Uncirculated (B/Unc) or choice Unc: Uncirculated, but with higher than normal sheen.

Extremely Fine (EF): Coins shows only traces of wear to high points of the design & only light surface marks from circulating. Otherwise the design is clear and sharp & the coin will have much lustre. Notes are clean & crisp with only the slightest signs of creases and folds.

Very Fine (VF): Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

Fine (F): The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will have clear signs of soiling & heavy creasing, possibly also some tearing.

Very Good (VG): Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life & are of little value unless they are rare.

Choice: An exceptional example of the given grade.

Good (g): Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

About (a): Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

What is PCGS Encapsulation?

PCGS is an independent grading company based in the USA. They use a numbered scale to award grades to each coin they inspect from "1" for "worn flat" to "70" for "flawless". Coins in mint state are given the prefix "MS" and are then divided further still with the award of between 60 and 70 points out of a possible maximum of 70. Each coin is then sealed inside a tamper-proof holder with the details of the grade awarded. You will note we have several examples of these in this auction.

This error is not listed by SG & is the only recorded example. Brian Pope stated that it was discovered in 1989 however it could well be the stamp exhibited at Melbourne in 1894 by Joseph Davis. Brian studied this example in detail concluding that it failed all the tests for a forgery. It was subsequently submitted for a Ceremuga Cert in Oct 2023. The resulting conclusion was stated, "Unable to issue a certificate as the overprint is forged as far as can be determined at current state of knowledge." However he then covers this statement by adding, "for this item to be expertised with certainty, appropriate multiples/reconstructions would need to be provided for checking of the positions of both the overprint & plating of the basic stamp." So, an inconclusive opinion that leads us to offer this intriguing stamp on a "sold as is" basis but undoubtedly a mystery that requires further research. Previously estimated at \$5000 by Abacus Auctions.	\$2,000

Carnac Ret., Portland Place in London, with stamp removed but clear "G EYG MY 2 1842" h/s in red with neighbouring "Old Broad Street" in black. Carnac joined HMS Success with Capt. Stirling renamed Isle Bethelot as Carnac Island. Carnac was appointed Captain in 1837, Admiral in 1868. Fascinating content. Entire is heavily folded & must be handled with care.	\$200

1095	1884 (15th Feb) A lengthy letter, the first page with embossed "H.M.S. Harrier" crest in grey & headed "Perth Western Australia Feb 15th 1884".
